StratoSphere

Stratosphere invites you to enter a world where storytelling, music & effects are combined. Two characters in a story of discovery explore the magical space within a giant sphere. Using acrobatics, dance, mime and ball manipulation, we follow the antics of the inventor as he creates and tries to control a life-size dancing doll - only to discover in the end that it's the doll who is controlling him!

A unique idea with a high visual impact, Stratosphere engages you with a colourful display of skills and effects based around bubbles and spheres. A versatile act suitable for both indoor and open-air events.
